

Payment Commitment Form 2021-2022

I am proposing a range of payment options to choose from for 2021-2022 Educational Programming. If your financial capabilities do not fall within this realm, please indicate an option that might work for your family. I prefer payments be made by the beginning of the month, but could also accommodate payments being made by Session 1 and Session 2. Thank you in advance, for your open, honest thoughtfulness when it comes to the financial aspect of our professional relationship. I welcome a space where any financial changes, cares, and concerns can be readily communicated and resolved. The proposed options below primarily reflect the value on the quality of programming your children will receive. It is important for me to offer a truly unique/nourishing experience and to compensate teachers accurately for the time, care, attention, and skills they bring to the space.

Options:

Low - \$25.00/day _____

Median - \$30.00/day _____

High - \$35.00/day _____

Alternative Proposed Payment - _____

* The first sibling has a 10% discount and the second sibling a 15% discount.

Payments can be made by the 5th of the month prior to programming. For financial consistency for staff, days children are absent will not be reimbursed unless otherwise agreed upon. For example, if you know you will be missing class due to a vacation or travel, we can discuss how that might change payment responsibilities. If I ever need to cancel class due to sickness, weather, or other circumstances you will be reimbursed for that day.

****A \$50.00 deposit is due by June 1st to reserve a space and help with beginning of the year supply costs. This amount will be reimbursed in your first month's bill.**
